Engage for Change

Are you looking for some helping hands?

We just launched our new Engage for Change program on the Cloud Dentistry platform! Our mission is to build bridges between communities in need and individuals who want to give back. Through our platform, we make it easy for volunteers to connect with community service opportunities and help make a difference.

FAQ

What is the Engage for Change program?

Cloud Dentistry's new Engage for Change program allows you to promote your upcoming community outreach event on our platform for over 60K dental professionals to see. We enable organizations looking for volunteers to post their events directly onto our platform. Our intuitive interface makes it easy for you to manage your postings from one central location, allowing you to add and delete information as needed.

What kind of events can I promote through Cloud Dentistry?

Through our Engage for Change program organizations can promote an array of out-reach opportunities scaling from small to large. Whether you are coordinating a 5k walk to raise awareness or looking for volunteers at your clinic, if it involves the community, we want you to involve us!

How much does it cost to promote our event?

Our Engage for Change program is completely free, with no commitment or contract required. Volunteers can easily search for opportunities based on location and interests, connecting them with events that match their availability. Additionally, we provide detailed information about each event so that people can make informed decisions about which ones they'd like to attend.

How do I get started?

Please email the following information to our Community Outreach Manager, Amber D'Andrea at amber@clouddentistry.com

Information to include:

- What type of event are you promoting?
- Are you looking for professionals to help volunteer or to attend your event?
- Are you looking for Dental Hygienists or Dental Assistants?
- Is your event typically held on special days, or are you looking for volunteers on a consistent basis?
- Do you have a calendar of these events and/or when is the next event?
- What is the time and location of the event(s)?
- Do you have a website link to the event(s)?
