

FEATURES & BENEFITS

Looking for ways to get involved? Tired of aimless Google searches? Through our new Engage for Change program, organizations can post Community Outreach events directly on our platform for you to see in real time!

Features

- Volunteers can easily search for opportunities based on location and interests, connecting them with events that match your availability
- Register for events at the touch of a button through our mobile app
- Our Engage for Change program is completely free, with no commitment or contract required
- Cloud Dentistry enables organizations looking for volunteers to post their events directly onto our platform
- Our intuitive interface makes it easy to manage event postings from one central location, allowing hosts to add and delete information as needed, making sure information is always up to date

Benefits

- Making an impact on your community by getting involved and giving back
- We provide detailed information about each event so professionals can choose which events align with their interests
- Our messaging feature allows you to communicate freely with the event host if you were to have any questions or concerns
- It pays to give back, (literally)! Volunteering is always more fun when you do it with others you know. Volunteers can send their referral code to other dental professionals to join them for events and get paid once their referral completes their first booking!
